REPUBLIC OF **Fritz Hansen**®

# CONTEMPORARY 50s DESIGN

ORCHID BAR (SAS ROYAL HOTEL) 1960

We are pleased to reintroduce the Pot™ lounge chair designed by Arne Jacobsen. The chair was created along with the Egg™ and the Swan™ for the SAS Royal Hotel in Copenhagen in 1959.

With improved comfort, modern materials and available in new playful fabrics the Pot chair returns in better shape than ever. The low, comfortable lounge chair embraces everyone who sits in it without ever taking over the room. The Pot is modern yet timeless and it is an Arne Jacobsen original. It is a social and embracing chair that works as beautifully standing alone in a home lounge setting.

Today, the lounge chair is relaunched with the purpose of complementing contemporary interiors with yet another 50s design from Arne Jacobsen.

## A PERSONAL CHOICE

The Pot™ comes in a wide range of fabrics and leathers as well as 3 new Fritz Hansen Colours created exclusively by our own design team: the serene pale pink, the warm and earthy terracotta orange and finally the deep ocean blue. The base comes in chromed steel or in dark brown powder coated steel.
