

REVOLVER

DESIGN BY LEON RANSMEIER

HAY

- REVOLVER -

REVOLVER

Designed for HAY by Leon Ransmeier, Revolver comprises a series of circular tables, stools and bar stools in powder coated steel. The stools and bar stools have a revolving design, featuring a bearing mechanism that enables the seat to rotate 360 degrees. Footrests and hooks on the bar stools and tables add further functionality to the series, while curved edges and a careful sense of symmetry create a modern and uncluttered silhouette. Available in a choice of different colours this versatile series can be coordinated together or used separately in a wide range of public and residential environments.
