

Lyze / Chair
Design / Florent Coirier

Test
EN581-1 / EN581-2

Florent Coirier found inspiration for the Lyze collection in a technical and timeless design which makes this group of furniture elegant and contemporary. The unusual stainless steel backrest is attached to the aluminium seat and comes in various sophisticated colour combinations. The fibre cement top coffee tables, along with the comfortable lounge chair, elegantly furnish leisure areas in all settings.

Description

Code: **615**
Typology: **Chairs**
Collection: **Lyze**

Stackable: 6
Static Load: 200 Kg
Cover: FC/1210
Test: EN581-1 / EN581-2
Cushion Material: Tessuto
Standard

Technical Info

Width: **47 cm**
Depth: **54 cm**
Height: **79 cm**
Weight: **4.00 Kg**
Static Load: **200 Kg**

Packaging

Packages: **1**
Pieces for pack: **4**
Dimensions: **106x72x55 cm**
Volume: **0.419 mü**

Polyethylene bag and cardboard
box

Matt White - Matt White

Matt White - Taupe

Black - Black

Maple Red - Maple Red

Grey/Green - Grey/Green

Indian Brown - Indian Brown

Dark Green - Dark Green

Materials

Aluminium

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosio process.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter. To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.
